

Possibility of the Big-Bang related research at Phase I SARAF

μ Workshop

(22 November, Schwartz room, Soreq NRC)

11:00-13:00	Get together, lunch at the NRC canteen
13:00-14:00	Dr. K. Nollett: "Big Bang nucleosynthesis: its role in cosmology and its problem with lithium"
14:00-14:45	Prof. M. Gai: "Further measurement(s) of neutron interaction with ^7Be "
14:45-15:00	Coffee break
15:00-15:25	Dr. L. Weissman: "Status of phase I of the SARAF facility"
15:25-15:45	Prof. M. Paul: "Status of the LiLit target"
16:45-16:00	Dr. A. Shor: "The VERDI spectrometer, possibilities at SARAF"
16:00-18:00	Coffee break / Discussion of the future plans
18:00-18:30	Tour over the SARAF facility and the LiLit lab
	Desirable to do before the lunch to get more time for discussion. (If Moshe could come earlier than 13:00)
18:30	Adjourn
